Dear Fellow San Jacinto Employees:

I think most would agree that children who attend school in the San Jacinto Unified School District receive one of the best educational experiences the public education system has to offer. There are many reasons for this, one of which is the *San Jacinto Education Foundation*.

Since 2001 a committed group of people have been organizing efforts to make resources available to schools to provide students exceptional opportunities, experiences and programs. Just as important to the *Foundation* is the *District Employee Recognition Program* where teachers and educational support personnel are recognized for their exemplary service to students.

Since its formation, this nonprofit organization has raised thousands of dollars for our schools. School employees have been important supporters of the *Foundation* from the beginning. The payroll deduction program will make contributing to the *Foundation* even easier. I encourage you to continue (or to begin) your support by taking advantage of this opportunity.

Good people are making good things happen for our great students! Thank you for what you do.

Sincerely,

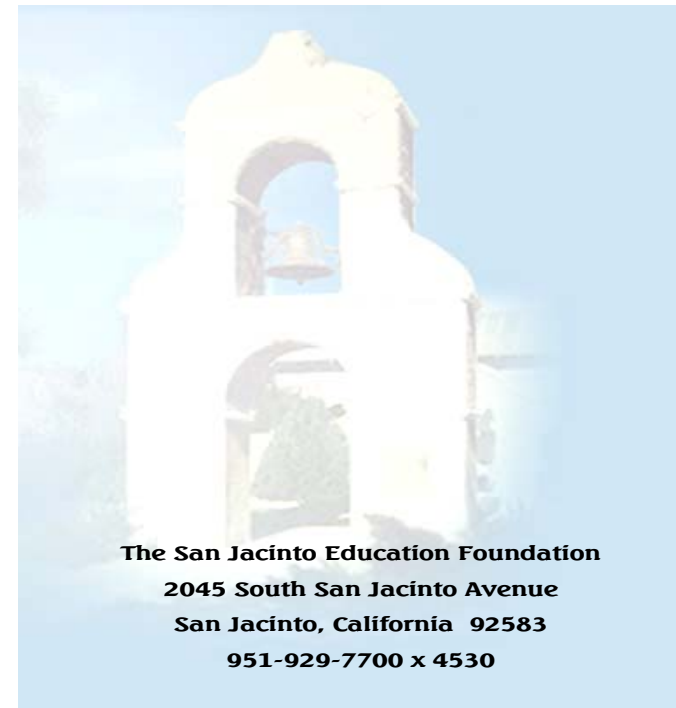

Shari L. Fox, Ed.D.  
Superintendent
